Open-ended questions

Please describe any effective methods the TA uses or characteristics the TA possesses that are particularly helpful for your success in the course.

Comments
He explains the subjects in a clear way
Our TA explains the questions carefully and answers the questions right after we sent it to the chat. He does everyone's request in the DGD. Our TA respects everyone's request and explains the questions if we don't understand. He is willing to give extra hours after DGD to solve our questions.
Solving the problems requested by students.

Please provide any suggestions for improvements the TA could make that would be helpful for your success in the course (the purpose of this questionnaire is to gather constructive feedback).

Comments
I would appreciate if we could work more on examples like the ones on Möbius
Please speak slower with a little hesitation in important parts.

Please provide specific examples of what you like most about the DGDs, the labs and your learning experience overall.

Comments
I enjoy how it is easier to ask questions, and we get more practice
